Washington, DC 20001

Dear Mr. Johnson:

This is in response to your letters of January 29 and February 6 regarding the requirement for noting the time for street breaks initiated at the Mansfield, Ohio and Clearwater, Florida Post Offices.

This matter was brought to the attention of our Delivery Services Department. Appropriate instructions have been issued to our field managers to assure proper compliance with the Memorandum of Understanding and our Agreement that no time will be noted on Form 1564 when designating the approximate location where breaks are to be taken.

I trust this will resolve the problem which arose at Mansfield, Ohio and Clearwater, Florida.

Sincerely,

William E. Henry, Jr.
